

Equipment required for a 'campsite'

To correspond to the 'campsite' category, you have to fulfil the following obligations as regards equipment, among others.

SITE

- The campsite is located in a healthy place.
- The site is supervised whenever open by one person (the operator or the person in charge of the day-to-day management) who can be reached at all times.
- The campsite has:
 - waste collection equipment that is operational at all times, comprising either dustbins with lids or plastic bags or closed containers;
 - an internal, enclosed sewerage system to which at least the collective bathroom installations are connected and which is itself connected to the public sewerage network;
 - a drinking water supply mechanism.
- This drinking water supply mechanism:
 - is designed so that the water distributed cannot be polluted;
 - provides a minimum daily flow of one hundred litres per plot;
 - comprises at least one water point area in hard materials per group or part of a group of fifteen plots where waste water can be discharged.
- The use of non-drinking water is permitted only for the operation of the toilets, dumping for chemical toilets and cleaning purposes. The distribution of non-drinking water is very clearly indicated.

BATHROOM FACILITIES

- The campsite has bathroom facilities for collective use in one or more closed and covered structures.
- The number of bathroom facilities is equally divided between men and women.
- The sections and separate entrances for men and women are indicated by a clearly visible pictogram.
- These bathroom facilities contain at least:
 - per group or part of a group of ten plots:*
 - a toilet equipped with a seat with rim and flush and a washbasin with a mirror and a shelf;
 - a urinal with flush;
 - a shower with hot and cold running drinking water;

per bathroom block:

- a waste outlet for chemical toilets.
- The collective bathroom facilities are well maintained and have an efficient ventilation system.
- The bathroom facilities accessible during the night have electric lighting.
